You have met all
the SC for today
Archie A great
letter.

Dear Mr Liam Lyons

I am writing to say an enormous thank you for
giving up your time to come and talk to us in our
assembly on Tuesday about your career in the RAF. I
thank your job as team leader and head instructor
is inspirational and the whole assembly was great. I learnt
a lot about how parachutes work and it helped me
understand my science lessons more as we are
learning all about forces and air resistance.

When I tried the blue parachute up, I could not

well
love

believe how much it all weighed, I love wearing the cool goggles and safety helmet and wished I had a new G after Max got my dirt bike.

The videos you showed us were really interesting and I think I saw you sky diving at Receptis Hall in the summer

The second blue parachute was in my opinion, the most impressive and I wished I could have a go at jumping with it on.

Finally, The VR headset experience was really fun and I enjoyed pretending to be one of your team.

Yours faithfully

Archie J. Murray. Thank you for the books, I hope to

see you sky diving soon.

Archie J. Murray
