

Thursday 7<sup>th</sup> September

L.O. To write a recount from a first-hand experience.

Yesterday, (Wednesday 6<sup>th</sup> September), class & I travelled to the care farm on the big, silver minibus, with Mr Harrison driving and Mrs Davis in the back with us. Firstly, we all changed into our wellies in the day room, it was very sunny and hot

After this, we walked to the barn and saw the new tiny pink piglets, they were very cute. Following this, we gently brushed the dusty donkeys.

Next, we let all the rabbits and guinea pigs out and put them into their boxes and carefully carried them up to the field. I held the guinea pigs and did a brilliant guinea pig impression.

When this was completed, we went to the old stable and caught all the chickens. I carried a chicken all the way up to the top fields. We also looked for eggs and found 3 speckled eggs.

Following putting the chicken into their coops, we walked all

the donkeys and the ponies to the meadow.

I took Pickles, Princess and Holly they were all very hungry.

Furthermore, we filled up all the feed trays with hay so the animals all had something to eat.

Our last job was walking all the big, fat, smelly goats out. They were very naughty and were trying to pull us. Before we had our drink and snack, we went to see Matt's shiny red tractor - it was huge and much bigger than his old blue one. Once all the jobs were done, and we had finished our drinks we changed back into our school shoes. Finally, we all went back to school on the mini bus and had lunch. I really enjoyed the farm visit and learnt a lot about how to care for different animals. My favourite animal was the cute, fluffy guinea pigs.
